Re: EPA's CERCLA Section 104(e) Request for Information of January, 1999
 Peterson/Puritan, Inc. Superfund Site – Operable Unit 2 – J.M. Mills Landfill
 Our Client: CCL Custom Manufacturing, Inc.
 Our File No.: 574-9042

Dear Ms. Cutler-Jones:

As you know, I represent CCL Custom Manufacturing, Inc. as counsel of record in the above-referenced CERCLA administrative proceedings. I am writing to confirm the extension of time which EPA has granted to CCL Custom Manufacturing, Inc. within which to provide "phase two" of our response to EPA's 104(e) Request for Information. As I advised you, we will provide "phase one" of our response on March 15, 1999.

On Wednesday March 10, 1999 I spoke with you and advised that both my client and I were still in the process of obtaining information and data sufficient to complete responses to certain remaining sections of the 104(e) demand, but that the process of gathering remaining

relevant information could not be completed by March 15. After discussing my request for additional time, EPA has granted CCL Custom Manufacturing, Inc. an additional extension of time up to, through and including April 15, 1999 to provide its phase two response. We continue to work diligently and in good faith to complete the response and forward it to EPA. I am confident that we will complete our response by April 15th.

Thank you for the courtesy you have extended.

Very truly yours,

JONATHAN A. MURPHY
